

G. M. Blackstock Speaks At Conservative Meeting

G. M. BLACKSTOCK

FRIENDS SURPRISE ROSEMARY COUPLE

ROSEMARY, Oct. 8.—A very pleasant surprise was planned and carried through by Miss Lois Ankrum Wednesday evening, October 4, complimentary to her father and mother, Mr. and Mrs. Harry Ankrum, whose marriage took place in Columbus, Kansas, October 2, 1910. The evening was spent playing games until midnight, when an address was made by Mrs. James McElafe and a lovely piece of silver from their friends was presented to Miss Ankrum.

A table with a three-tiered wedding cake, made and decorated by Mrs. William Tauter, and another made by Mrs. P. A. Gelling was presented, to which Mrs. Ankrum thanked all who so kindly remembered them.

A lunch of sandwiches, ice cream, cake and coffee was served to thirty-five guests. All returned to their homes wishing the host and hostess many more happy returns of the day.

HUSSAR

Mr. Chris Jorgensen and sons were in from Makepeace on Saturday evening.

Mr. T. H. Clark and Mrs. Earl Johnson were Drumheller visitors on Saturday.

Mr. and Mrs. Phil Rogers of Chancellors visited at Tom Lawson's on Saturday.

Mr. and Mrs. C. T. Armstrong spent a few days in Calgary last week.

Born, to Mr. and Mrs. Ruby Stullins, on Friday, October 4, a daughter.

Mrs. J. Hought celebrated her birthday on Friday by having a few friends in for coffee.

Friday school every Sunday at 11 a.m. Church services at 12:15 on Sunday 10 and 11.

The W. will meet at the home of Mrs. J. Lawrie on Thursday the 12th.

The teachers of the Hussar school attended the convention at Drumheller on Thursday and Friday, October 10 and 11.

Mr. Hans Buchknight, recently married, with his youngest sister, was married on Tuesday, October 8. Her name is Mrs. Johan Lager, and the address is Orla Lehmannsgade 2, Vejle, Denmark.

Traces Record of Conservative Govt. and Policy if Returned to Power—Compares Liberal, Conservative Records—Always Will Be Varied—Lost Markets Not Failing of Govt. in Power—No Aim Having Social Credit in Federal Field—Gives High Lights Bennett Administration

This is the fourth time as a Conservative candidate in the federal field, were G. M. Blackstock's opening remarks at the Conservative meeting here Wednesday night, "and I am not giving up, I won't accept defeat." Prefacing his address with a few summary statements regarding his opponents in the election, Mr. Blackstock said he had learned not to disregard personal spite on one's own account in an election campaign. Though sympathetic with the aims and objects of Social Credit, the speaker stated that this group is useless in federal politics as they are no leader, and with a possible total of fourteen being elected, they would accomplish nothing in Ottawa. Mr. Blackstock appealed to the audience to vote for himself, or for Gershaw, not for an extraneous party who would be forced to compromise with every other party.

The Trade policy, a question of wide importance, was gone into thoroughly by Mr. Blackstock. Free trade has been presented by the Liberal party since 1867, but there has always been a tariff, and there always will be, as the Liberals dare not destroy the industry for the sake of eastern Canada. Foreign markets have been lost between 1921 and 30, during the Liberal administration. Mr. Blackstock said that Mr. King nor the Liberal party, and the speaker announced, if the Liberals are far-minded and decent, they will not lay the blame for any lost markets on Mr. Bennett's shoulders. Markets have actually been extended, the candidate claimed, quoting records of statistics showing Canada's trade from 1921 place in world trade during the past five years occupy fifth place. A favorable trade balance was also shown by the Conservative party, the origination being by developing trade within the British empire.

Delving into detail on legislation passed by the present government favorable to western Canada, Mr. Blackstock stated that Alberta and received a generous portion of the money allowed for relief expenditures in the dominion. The Rehabilitation for prairie farmers has given the latter a measure of assistance in offering to stand the major portion of expense in building dams and reservoirs in dry places. The Marketing act was drawn up with the sole idea of creating a co-operative basis for the marketing of ranchers and farmers' products to reduce costs of handling and give more profit to the producers. The Farmers' Creditors Arrangements act has reduced many a face job world with courage and hope that they never would have but for the passing of this act.

In closing, Mr. Blackstock gave a graphic resume of the wheat problem in Canada, and the part of the Bennett government in preventing exploitation of the farmer.

A McKee occupied the chair for the evening, introducing Mr. Blackstock to the Bassano audience.

These articles may be seen at Currie & Milroy's Store.

The citizens committee met on Monday afternoon and decided to have a Scout jamboree in the Scout hall on Saturday afternoon.

Mr. W. J. Kirby, former Scout Master, is planning to motor down from Okotoks and will present several bands and will present several bands and will present several bands.

The teachers of the Hussar school attended the convention at Drumheller on Thursday and Friday, October 10 and 11.

Mr. Hans Buchknight, recently married, with his youngest sister, was married on Tuesday, October 8. Her name is Mrs. Johan Lager, and the address is Orla Lehmannsgade 2, Vejle, Denmark.

Friday school every Sunday at 11 a.m. Church services at 12:15 on Sunday 10 and 11.

The W. will meet at the home of Mrs. J. Lawrie on Thursday the 12th.

TEN MEMBERS AT MEETING TRADEBOARD

The Bassano board of trade, with fifty active members on the roll, had an attendance of ten at the bi-weekly luncheon meeting held in the Imperial hotel on Wednesday, October 9. A recorded meeting requires a quorum of fifteen.

G. M. Blackstock, Conservative candidate in the forthcoming election, was the guest of the board, and addressed the meeting briefly on the problems and accomplishments of the Medicine Hat chamber of commerce, of which he is vice-president. The members exhibited a keen interest in the horse show sponsored by the chamber of commerce. Mr. Blackstock giving a brief history of the event since installing it as an annual feature three years ago.

The dance committee gave an unofficial report, stating that every effort was in readiness for the evening of trade, on October 18, and that tickets would be on sale in a few days.

DR. F. W. GERSHAW, M.P. Liberal candidate for this riding, who will speak in Bassano tonight.

Social Club Meets At Jones' Home

The Social club met at the home of Mrs. William Jones on Thursday at 2 o'clock, with 11 members present. Arrangements for a carnival and bazaar were made, which will take place in November. The purchase of lots was discussed to plan for a new hall. When ample support is obtained. A paper given by Mrs. McElafe on "My Visit to England" was read and the meeting was turned to Mrs. Jones. A puzzle contest was enjoyed. Mr. McMahon being prize winner. A delicious lunch was served by Mrs. Jones and Iris.

Word came of a car accident when Clara Narm of Morleyville was hurt when the brakes of her car failed to hold on the hill near Queenstown. It is hoped by her many friends that she will be able to walk soon without the aid of crutches.

CHANCELLOR, Oct. 7.—The regular monthly meeting of the W.1. Group met at the home of Mrs. H. J. Young on the 7th of October. There were 11 members and two visitors present. Plans were made and committees appointed to take charge of the Hallows' on novelty dance and bean supper to be held at the Memorial hall on November 1. Mrs. H. M. Muir, Mrs. M. Muir and Mrs. E. Young are to have charge of the prizes and novelties for the dance, while Miss M. Grant, Mrs. J. M. Wheatley, Miss C. Taylor and Miss A. Strong are on the decoration committee. At the close of the meeting the hostess served a most delicious lunch.

Mr. and Mrs. P. Law and Mr. Arnold Law returned to Dorothy on Sunday to spend the day with their daughter and son-in-law. Mr. and Mrs. Harold Thayer.

A Social Credit meeting was held at C. C. Phillips' store on Wednesday night. Mr. H. Hest is chairman of the group, and Mrs. G. C. Phillips, secretary-treasurer. It was decided to take up a donation for the federal campaign election.

A great majority of the people of Chancellors and district attended the picture show in Standard on Friday night. The show was "County Chatter", starring Will Rogers.

It is gratifying to know that Miss Louise Ström called up from Manitowish, Kansas, on Thursday night, and talked to her parents and sister at the home of Mr. and Mrs. J. J. Jones.

Rev. Winters of Strathmore held church services here last Sunday. Rev. Aldridge of Calgary will be here next Sunday.

CHANCELLOR, Oct. 7.—The regular monthly meeting of the W.1. Group met at the home of Mrs. H. J. Young on the 7th of October. There were 11 members and two visitors present. Plans were made and committees appointed to take charge of the Hallows' on novelty dance and bean supper to be held at the Memorial hall on November 1. Mrs. H. M. Muir, Mrs. M. Muir and Mrs. E. Young are to have charge of the prizes and novelties for the dance, while Miss M. Grant, Mrs. J. M. Wheatley, Miss C. Taylor and Miss A. Strong are on the decoration committee. TOWN FATHERS HOLD REGULAR MEET MONDAY

Mayor W. B. Playfair presided over the regular meeting of the town council on Monday, October 7, at which Councilmen McCulloch, MacKenzie and A. G. Scott and Secretary-Treasurer Donaldson were present.

As a memo to the late Mayor H. G. Bredin, the council voted their sentiment of him the following words, which were recorded in the minutes:

"The Council learned with keenest regret the death on August, the 14th, last, of Mayor H. G. Bredin, at the age of 72.

"Harry Omond Bredin was elected Mayor of the Town of Bassano a Special Election held on June 4, 1918, and held that Office until his death.

"During his 17 years in office, he has given of his time unselfishly in the service of the Ratepayers and Citizens, and has supervised the business and finances of the Town with a high efficiency and has at all times been most punctual at all the meetings of the Council and its Committees, and with his kindly and generous nature he will be sorely missed by the citizens of the Town of Bassano, as well as a large circle of friends.

"Requiescat in pace."

The business session of this month's session was comparatively light: Three tenders for the purchase of the old Hayco house were read, and it was decided not to bid the house at the figures submitted. The secretary was instructed to return the tenders. The request of the Canadian National Institute for the filing of financial assistance to the extent of ten dollars was granted on a motion by Councilmen McKee and Sherrett. A reply from the Calgary Power Company was read re the operating three monthly of the gas auxiliary plant here. In an application for permission to lower the water level at the dam for repairs, the Eastern Irrigation District submitted their petition for the dam to be lowered.

Report of Town Engineer, F. Mead

The disposal plant was cleaned and repaired, the sewers were flushed from the blind ends, two hydrants were repaired; a leak in the water main was repaired; one culvert repair graveling was carried out on main street; the trees were watered and the irrigation system was closed down for the season; both pumps at the irrigation plant were operated during the month of September and found in good condition.

Arche Mitchell Addresses Social Credit Forces Here

Arche Mitchell, Social Credit speaker, addressed the Social Credit forces here on Friday, October 4, on the occasion of A. Mitchell's initial address to Bassano people. Asking the audience to shoulder him as an individual seeking political reform, Mr. Mitchell asked the continued loyalty of his hearers to Social Credit. The provincial election was won, the speaker asserted, not by the candidates and speaker themselves, but by the Social Credit group in their diligent and unceasing efforts towards a goal.

Mr. Mitchell took a firm stand against the loan council as advocated by Hon. R. B. Bennett, stating that the Bank of England, a bloodsucker, was the greatest enemy of the people behind the scenes, and that if a loan council policy was put into operation, citizens would be without their machines in a few years. Ottawa, the candidate emphatically stated, will be the biggest part of the constitutional battle, as the headquarters for the unemployed gain work, the ultimate goal will be a crowning success for Social Credit at the capital city. Due to the lack of time at his disposal, Mr. Mitchell touched briefly on unemployment and the problem of distribution, quoting an excerpt from a League of Nations report stating that if unemployed gain work in the same ratio next year as this year, there will be 75 per cent more unemployed. Distribution, the speaker claimed, has always been the same, and that the talk of the gold standard was all humbug. In closing Mr. Mitchell stated that Social Credit will be settled by three phases, the election battle, the constitutional battle, and engaging the forces of money power in a death struggle.

Mr. J. Mueller of Husar gave a short introductory address, stating that the real issue of the present day was unemployment, and that the actual problem was not foreign trade, but distribution of our over produce.

Mr. Mueller said, as the backbone of Social Credit and would help care for the unemployed; he also expressed the faith of the old time party in redistributing and helping the people.

W. E. Cain, M.L.A. for Bow Valley, read the present election campaign, and stated that the other three parties in the federal field are all in primary respects in that they are trying to relieve the unemployed, at the expense of the employed.

Mr. Cain stated that in the coming election he voted that it be stronger than the Social Credit.

Mr. J. Mueller of Husar gave a short introductory address, stating that the real issue of the present day was unemployment, and that the actual problem was not foreign trade, but distribution of our over produce.

Mr. Mueller said, as the backbone of Social Credit and would help care for the unemployed; he also expressed the faith of the old time party in redistributing and helping the people.

The World In Danger

As week succeeds week the possibilities of war between Italy and Ethiopia grow nearer to certitude and the situation becomes fraught with alarming menace, and merely to the two countries involved but to other countries and possibly the whole civilized world.

With the Italian representatives rejecting, one after another, proposals which are being made almost daily by committees of the League of Nations and interested powers in the hope of averting an outbreak of hostilities, and Emperor Haile Selassie refusing to accept any compromise which would result in the surrender of the independence of his kingdom, the situation becomes more and more gloomy, and the gloom deepens with the active preparations which are being prosecuted by Mussolini and the belligerence with which he is whipping his countrymen into a warlike attitude.

Statements of the leading nations of the world and international authorities appear to be in complete accord with the general consensus of world opinion that such a conflict would not be confined to Italy and Ethiopia, but that other nations would be dragged into the fray and that it is even likely to lead to a general conflagration which would result in misery and suffering to millions and loss of life and property on an even greater scale than the Great War of 1914-18.

Indeed, there are authorities who see in the present situation a potential destruction of civilization itself. This view is supported by the Committee on International Law of the Canadian Bar Association, which in a report to the Canadian Bar Association on covering in Winnipeg recently spoke of "the consequences to the world and Canada of an actual resort to arms as probably 'catastrophic' in the sense that it may include the destruction or profound modification of many of the institutions upon which civilization is based."

Again in the same report, the committee dealt with the conduct of Italy as indicating that government's unwillingness to accept decisions of the Council of the League of Nations, of which she is a member, in the following words:

"If that attitude persists the world may be faced with a complete breakdown of the system of public international order which was supposed to have been permanently established at the close of the years 1914 to 1918. The question is whether or not the peoples of the world will permit this by failure to agree to union action or whether, by union action, they will, as they undoubtedly can, insist upon the observance of the public law upon which the continuance of our present civilization may depend."

The statement that the peoples of the world can avoid this catastrophe by union action refers to the powers which the member countries of the League voted in themselves when they approved Article 16 of the covenant, to which all members have subscribed, agreeing to impose financial and economic sanctions as a punitive measure against any member who breaks the covenants and commits an act of aggression against any other country.

In view of the menace of the situation the importance of these powers become paramount. They are contained in the first and third paragraphs of Article 16 and read as follows:

1. Should any Member of the League resort to war in disregard of its covenants under Articles 12, 13 and 15, it shall ipso facto be deemed to have committed an act of war against all other members of the League, which shall be deemed to have been committed on the day on which the act of war was committed, and that they will mutually support one another in resisting any and all such acts of war, and that they will take the necessary steps to enforce the League's decision to prevent the forces of any Member of the League who is in violation of the covenants of the League.

2. The Members of the League agree further that they will mutually support one another in the financial and economic measures which are taken under this Article in order to minimize the loss and inconvenience resulting from the above measures, and that they will mutually support one another in resisting any and all such acts of war, and that they will take the necessary steps to enforce the League's decision to prevent the forces of any Member of the League who is in violation of the covenants of the League.

It is not perhaps generally known that the spirit of despatch within an act of aggression or despatch within the meaning of the covenants is not to be decided by the Council but that the act of aggression or despatch is to be decided by the Council but that the act of aggression or despatch is to be decided by the Council but that the act of aggression or despatch is to be decided by the Council.

However upon a summary of the above it is evident that the "act of war" it is an aggression under the covenants to prevent an act of aggression or despatch within the meaning of the covenants.

With the onset of aggression or despatch within the meaning of the covenants, the importance of the general public being fully placed on events as they transpire, has ready to be understood as in the final analysis, it is the people of each country who are in the final analysis, to decide what part their country may play in the efforts to avert a major catastrophe.

Huge Boulder Slide

500 Tons Of Rock Breaks Loose At Niagara Falls

With an thunderous roar, 500 tons of rock broke loose from the cliff on the American side below the lower bridge at Niagara Falls, at a point where 200 tons fell last April.

Huge boulders and shale were piled high on the tracks of the International Railway gorge line, and traffic was suspended. The railway trucks were lifted from the roadbed and pushed to the brink of the gorge. One pole carrying power lines was moved by the avalanche of rock and mud.

Officials stated it would take considerable time to clear the railway track of the present fall.

Caked Udder Cleared

Experienced dairymen said Miss King's udder is the best ever seen in the province.

Completes Bird Survey

Northwest Territories Good Breeding Place States U.S. Biologist

Completing a two-month survey of nesting places of migratory waterfowl in the Northwest Territories and northern Alberta, L. J. Goldman and C. E. Gillman of the United States Biological Service, Washington, D.C., arrived at Edmonton by airplane from Fort Resolution.

Mr. Gillman, who lives at Albuquerque, N.M., expressed himself as very favorably impressed with the extent and possibilities of the north country as a breeding area for waterfowl, but explained he was unable to release the result of his survey until he had reported to his government.

Nesting places of duck and geese on the various lakes as far north as Fort Resolution were surveyed.

Women Like Combines

We'll wear the farmers' wives are glad that threshing is over. At the Jess Denton farm in Alina, Kansas, there were 21 men for dinner and 27 for supper, while at another farm near, where one of the big combines was used, three men harvested 165 acres in a day. That is one place where the machine lessens the work for the women.

A Great Astronomer

Dr. Anna Cannon Has Classified Over 400,000 Stars

That astronomy is not so exact a science that the average man would not be interested were information readily available, is the opinion of Dr. Anna J. Cannon, of Harvard, who was in Toronto as a delegate to the American Astronomical Society's convention.

For 50 years Dr. Cannon has been gazing through telescopes and the mystery of the heavens has given a thrill for her as ever. Dr. Cannon is the most famous woman astronomer in the world, and she has shared with Madame Curie of France and others equally famous the honor of receiving the Ellet Richards' prize for outstanding work by women in research.

She was the last recipient of the prize, which was founded to encourage women to study science. But because it was felt women no longer needed encouragement to enter, it was discontinued. Dr. Cannon has continued, however, for women in astronomy it is called after her now and it goes to women astronomers.

The prize was given Dr. Cannon for classification of stars according to their spectra. She has classified over 400,000 Harvard is now a mere for astronomers all over the world who seek astronomical observations of spectra.

An Intricate Problem

Joining Of Steel Plates On Limer Queen Mary Requires Study

Chief engineer of the Queen Mary White Star super liner Queen Mary has been complicated by reason of the fact that no two of her steel plates are exactly the same, according to reports from the shipyard at Clydebank. Most of the plates are curved, and many of them are made from 36 feet long, 6 feet wide and more than an inch thick. Few are really flat.

The thickness of the plate so that each rivet hole pairs exactly with the corresponding hole on the other side of the plate is an intricate problem, and more than 10,000 rivets are used in the hull. Each plate must overlap at least six others adjoining it, creating a problem of arrangement that has required the study of a large engineering staff.

A large half-model of the ship has been laid out on a large scale on the shipyard, furnishing an accurate picture of the successive rows of plates and a laboratory for the study of the details of construction which are carried out on a larger scale on the ship itself. New York Times.

Greatest Russian Scientist

Has Done Much To Extend Study Of Nervous System

Both Tsar and Bolshevik Governments have delighted to honor the great Russian scientist, Prof. Ivan Pavlov, says the News of the World. No one living has done more to extend the study of the nervous system of men and animals, and particularly knowledge of the connection between brain and body. He was awarded the Nobel Prize for this work as long ago as 1904. Last year, when he was 85, the Soviet Government gave him 100,000 rubles to equip a laboratory for him. It now pays the old man, who was the son of a poor village priest, 12,000 a year, and according to H. G. Wells, he is the only man who dare answer Stalin back.

New Variety Of Dahlia

A Shasta-twin dahlia, which may be the forerunner of a new variety of the autumn flower, was displayed at Victoria recently. The dahlia was grown by Mrs. W. G. Gordon of Sooke, B.C. It is two colors joined together in the petals. The dahlia is of the pompon variety and the back-to-back flowers almost all white with pink petals. Plant experts termed it a queer aberration of nature.

Village Needs Fed Piper

Fifty rats a night are being killed in the village of Chilton, England. All the men have enlisted into an ancient army to combat the ravages of the rodents, which have laid siege to one farm and have become a plague. So far the rats have won.

To help teach children music a resident of Portland, Ore., has invented a metal plate painted with notes to which magnet backed paper notes can be fastened.

Gas Test Well

Great Activity Shown In Hudson Bay Junction Territory

Amalgamated Oil Ltd. brought in the fourth gas test well on the Kakwa structure recently. The flow was encountered at 275 feet, the same level at which gas was found in other wells, says a report from Hudson Bay Junction.

The four holes have been drilled largely with a view to securing geological data on the structure, which is very large. A test for oil somewhere in the Plewies hills is now considered justified.

It was stated unofficially that the Senator Oil and Gas Development Company, Ottawa, intended shipping a rig to Hudson Bay Junction and drilling for oil on the structure where the Trail Blazer Company put down a hole last year. This structure is near Hudson Bay Junction and quite distinct from the Kakwa structure, 25 miles distant.

Rare Animal From Africa

Okapi In London Zoo Looks Like Miniature Giraffe

Leo, the Okapi, one of the rarest animals in the world, has taken a prominent place in London Zoo's collection. It was brought from Africa and is the last of the town. An Okapi (O-kapi), with the accent on the second syllable, includes in equal proportions the characteristics of the giraffe, the deer and the zebra. He looks like a miniature giraffe.

One of the chief of animals, the Okapi is a member of the family of extinction by the penguins of the Lurli forest with their deadly blowguns.

Hurts Coal Industry

Bitter Complaint Against Natural Gas Competition In Alberta

Use of natural gas in Edmonton last year deprived mines of a market for 350,000 tons of coal. Sir Montague Barlow, eminent British authority on collieries, was told as he opened his investigation of Alberta's coal industry. His complaint against natural gas competition was voiced by Mayne Reid, counsel for 10 coal companies. Mr. Reid also informed Sir Montague that truck and bus competition to railways has reduced the market for steam coal.

675

LITTLE DAUGHTER FOLLOWS "SUIT" BECAUSE MUMMY HAS DECIDED IT'S A SUIT SEASON

By Ellen West
Here she is showing just how attractive and practical her new model can be.

Originally it was carried out in lightweight woolen in red and brown. The boy's jacket was plain brown wool. The jacket has enough warmth for fall days. And another nice thing about it is that it gives extra warmth for winter days.

Wool jersey dress with the jacket of velveteen is another attractive scheme. Style No. 675 is designed for sizes 8, 10, 12 and 14 years. It has 8 1/2 yards of 28-inch ribbon for dress and 1 1/4 yards of 28-inch material for jacket.

Orders for Pattern Department, Winnipeg Newspaper Union, 175, McLeod Ave. E. Winnipeg. Let the New Fall and Winter Fashion Magazine send you assembling your family's fall wardrobe. There are designs for every type of dress, suit, coat and children's outfit of your perfect-fitting patterns obtainable for every family on a trial basis. Don't delay! Send for your copy to-day!

Sounds Like Good Scheme

Husbands Left Alone During Holiday Will Be Looked After

A scheme is being mooted in Old London to meet the needs of that unfortunate section of husbands—the husbands whose better halves have gone on ahead on their holidays, or who are staying another fortnight longer. Most husbands have been in the same predicament before. They fix up meals somehow, make the bed just before friend wife comes back, and use up all the socks in the drawer pending her return to demand them.

The idea is that a catering firm will provide breakfast and evening dinner, put it in the refrigerator overnight, charging so much a week for the service. Hubby just leaves a note suggesting what he would like and the thing is done. Thermos containers will keep the food warm. And what's more the company will do the dish washing.

Another branch of the service is valeting. Socks are to be left in a bag, collected, and returned next day, washed and mended.

Perhaps wifery may not like this idea. One of the greatest satisfactions she gets out of her holiday is the thought that hubby is putting up with so much discomfort that he will realize how much he depends upon her and will appreciate her all the more when she comes back—St. Thomas Times-Journal.

Land Has Disappeared

No Trace Can Be Found Of Property In Equinault

H. Heller of San Francisco was surprised recently to find a lot on which he had been paying taxes for over 50 years had disappeared.

Seller went to Victoria, B.C., to secure a title of a piece of property in Equinault, left to him by his father. He visited the land registry office and real estate agent there and in Equinault, but could find no trace of the property.

His father came to the coast about 60 years ago, and, becoming interested in Victoria real estate, purchased the land which he left to his son on his death. The son was advised to hold the property as a drydock was to be built at Equinault and the land was of great value. He let the land go at a tax sale and bought it back again.

The only explanation he can give now is that the property must be under water. It is said the matter was settled by the payment by the son of an annual sum for the land by Sellers at the tax sale.

Huge Cliff Demolished

Blasting In Scotland Dislodges Million Tons Of Granite

One of the greatest blasting operations in Scotland was successful recently in dislodging a granite cliff 500 feet high and stretching 400 feet across the face of Ben Dhurich, near Bonaville, which was "demolished" by dynamite. A signal was flagged from a tiny island in Loch Eive. At this a man crouching on the mainland, pushed a protective rock, and set off a forest 500 yards away, pushed down the lever of a dynamo, and the cliff tumbled into a myriad fragments. Pioneers and granite cutters in a cloud 2,000 feet high. In that second there was crowing triumph for men who had planned for the last four years to destroy the cliff, and by the touch of a lever there had been gained for industry 1,000,000 tons of granite. The success of the blasting, which cost \$200,000 to carry out, means that 400 quarries will be given work for years.

Plenty Left

The play had reached its climax. There were tears in the eyes of the audience for the villain had just kidnapped the heroine. The hero then came on the stage to find his sweetheart gone. Clutching hold of the table and of trembling hands he cried out loudly: "She is gone! She is gone! What is left for me?"

Somewhere in "the gods" the shrill voice of the new male boy cried: "Ice-cream, chewing-gum, chocolate and ice-cream!"

Bird Was Artistic

At Eggington Rectory, Derbyshire, a small stream flows through the garden; on the bank among the reeds and irises a moorhen built her nest; morning after morning the edge of this was carefully decorated with sprigs of buttercup gathered from the adjoining meadow.

Spectators Were Scared

An artist's aid brought a police car and ambulance and halted work in a Boston office building. Perched on a roof, painting a skyscraper view of the water, a young man called did not know that once workers called police to halt his "suicide."

Now's the Day and Now's the Hour

With times improving, roll-over owners "who has" smoked Ogden's Fine Cut in the past are crowding back to Ogden's because of the satisfying cigarettes it assures. And they are learning again that the best really costs very little. "Now is the day and now is the hour" for you, too, to get back to this favourite cigarette tobacco. And remember—"Chanticleer" or "Vogue" are mighty fine papers.

Advice For Everyone

Doctor Says People With Colds Should Be Isolated

If you have a cold, go home and isolate yourself. This is the advice of Dr. Gordon P. Jackson, M.O.H., of Toronto, who says that people do not consider colds with sufficient seriousness. The common cold, he points out, is responsible for greater financial loss to business than any other single disease.

"The common cold is highly communicable," he says. "And the change from the nice weather to the cold nights we now have, lowers the average individual's resistance."

WORLD HAPPENINGS
BRIEFLY TOLD

For the first time in the history of the Houston high court, a microphone and amplifier has been put in use in one of the chambers.

Field Marshal Lord Allenby, who celebrated his 74th birthday on St. George's Day, April 28, has an ivory stick with many varieties of foreign fitches.

A woman who cashed a cheque in an Edmonton bank wasn't taking any chances. The cheque read: "Pay to Mrs. —, 15 'Canadian dollars.' She got them.

Father John Louis Stracy, 32, died at the wheel of his car in Edmonton as he drove to a city hospital to get treatment for a heart ailment. The car crashed into another parked machine.

Indicative of the rapid mechanization of the Royal Canadian Mounted Police, not one saddle horse is stable in the force's barracks at Fort Leck, Alta. All animals formerly kept at southern Alberta detachments have been disposed of.

A few weeks ago Joseph Ekkert, 35, collided with a buggy while riding his bicycle in Stouffville, Ont. The shaft of the buggy went clear through the boy's body, an inch up above the heart. Now he is up and around again almost as well as ever.

Two men were sentenced to five years imprisonment for firing shots at a procession of Orangemen on the streets of Belfast, Ireland, when Thomas Connolly and Joseph McDonald. Several persons were killed and wounded in the July riots.

Vancouver is returning to a normal financial position "better than any other city in Canada," said C. E. Tisdal, chairman of the civic finance committee, told the British Columbia Grants Association in session in that city.

Will Not Accept Legacy

English Woman Bravely Cured Laid

On Ancestor Because she dreads an Indian curse laid on one of her ancestors who, she believes, despoiled a temple, Mrs. J. Schofield, of Haverhill, near Liverpool, England, refuses to touch a legacy left by her mother.

Intend she will devote all the money to a religious cause, hoping that in this way the power of the curse will be broken.

Said Mrs. Schofield: "We need the money badly, my husband and I, but I am afraid to touch it. It comes indirectly from my ancestor's estate. My great-niece won a law action against an Indian maharajah on December 13, 1844. I gave him jurisdiction over certain land on which a temple dedicated to a vestal goddess.

"Two days later he was found in the temple, stabbed to the heart with a jewelled dagger. A piece of parchment with the curse written on it lay on the body.

"Note the two dates, Dec. 13 and Dec. 15. My father died on the 13th of a month; my mother on the 15th, in tragic circumstances. Other members of the family have died tragically on those two days.

"The curse particularly affected the women of the family. That is what decided me."

Deer Halls Ocean Liner

Navigation Dept Still Until Swimming Animal Was Rescued

A young buck deer went for a swim along the Vancouver coast, and the episode proved so momentous it halted an ocean liner, brought out a police cutter and even impeded the British navy.

A longshoreman waiting to work the Empress of Japan saw the deer swimming in the cold water and noticed the animal was limping. His shout brought a police launch to the scene and excitement ranged along the half-mile of the waterfront.

H.M.S. Daner, leaving for Victoria, sounded its siren, the S.S. Princess Marguerite, a ferry boat, a cargo ship and a number of smaller craft halted in their courses as the police boat performed a rescue. Slipping a noose over the head of the weary animal, it was hauled aboard the launch. The buck was later released on the north shore and navigation continued.

Picture Well Preserved

A picture of King Edward VII, chiselled in the east wall of the Miners' mine more than 20 years ago. The picture of King Campbell of West-Isle, Nova Scotia, was found to be in a remarkably good state of preservation when the mine was being dismantled. The Greenwood Coal Company was having the colliery dismantled to work in new coal areas.

Cane Sugar Growers Worried

Afraid Seed Cultivation in United Kingdom Will Run Industry

With the United Kingdom Government subsidizing beet sugar at home, the British West India and British Cane growers are wondering what is to become of their cane sugar industries—already depressed by low prices.

Barbados, whose only possible crop for commercial purposes is cane, is particularly anxious to ascertain how far the Imperial Government intend to go with the cultivation of beets for sugar.

This island of 160,570 acres has 100,000 acres under cultivation, and a population of 180,000 about 120,000 colored people look to the sugar cane plantations for employment. Nearly all the planters are now in debt to the banks and are growing cane only in the hope of better times, and in order to support the enormous working population.

Should they be obliged to abandon sugar, the island would be permitted to do so. There would be no question of debt, because all the colony's taxes come from the planters, and the cane industry is the main source of revenue would be shut off.

Some of the other islands with different vegetation have better outlook. Grenada, for example, is making up for sugar losses by detecting much land to cultivation of other crops, and has been successful this year with bananas grown under a supply contract for a Canadian company.

Coached Popular Actor

Edmonton Man Taught Chevalier To Speak English

The man who taught Maurice Chevalier to speak English in a German prison camp at Allen Grabow, Germany, is now in the law office in Edmonton today. William King, who enlisted from Edmonton at the first of the war and spent his 17th birthday in the front line at Yper, saluted, became a pal of the French movie picture singer behind the electricity charged barbed wire of the prison camp.

Captured during the first gas attack, King spent some time in a German prison camp where he was placed in Allen Grabow camp. There he met the handsome young Frenchman, Chevalier, and for nearly a year was in constant companionship.

Unable to speak a word of English, Chevalier was coached by King to speak and sing in English. They even put on a musical show in the camp to brighten the long prison hours. "Before Chevalier was re-estimated he had mastered the language fairly well and was extremely grateful to us," King said.

Stratosphere Flights

Famous Flyer Says This Method Is Not Practical

Col. Roscoe Turner, America's dashing cavalier of the air who has made a name for himself across the continent in a few minutes over 10 hours, on a visit to Toronto, said that stratosphere flying was a "practical impossibility."

"When you get up in the thin air, have to supercharge your motors and your engine, the air even becomes prohibitive," Turner said.

The world will never see commercial flying in the stratosphere. A medium will be established half way between the stratosphere and the present air lanes where commercial planes can operate most economically."

One Of Quickest Jobs

Man Is Wash-Catcher To Firm Of Chocolate Makers

The News of the World, London, says one of the quickest jobs in the world is that of a man who is wash-catcher to Fry's, the chocolate makers, whose employees were being pestered by the insects.

During May and June he destroys as many queen wasps as possible to prevent their breeding. From July onward he scours the adjacent fields for wasp nests. Expert as he is, he sometimes makes a slip, and recently he was compelled to divest himself of his shirt, into which over 40 infuriated insects had penetrated.

Loses Its Identity

Like the little girl who was wanted to lose her whereabouts, Canadian four occasionally loses its identity. Practically all of the flour imported into Haiti is of Canadian origin, but the greater bulk of it is being shipped to Haiti through United States ports is called as U.S. product.

The possessions of France consist mainly of small islands in the Atlantic, Pacific and Indian oceans, with a few scattered territories in Africa, South America and Asia. — 217

Canadian Pacific Photo.

Sir Edward Beatty, G.B.E., chairman and president of the Canadian Pacific Railway, is shown here with Miss Joyce Austin, daughter of W. T. Austin, section foreman at Craigellachie, B.C., following a recent visit to the Craigellachie claim which marks the spot where Lord Strathcona on November 7, 1885, drove the last spike completing the Canadian Pacific Railway from ocean to ocean. On half of Craigellachie's handful of citizens Miss Austin presented the C.P.R. president with a bouquet of home grown flowers, a tribute which Sir Edward acknowledged with a hearty handshake. Sir Edward visited the memorial cairn in the 50th anniversary year of C.P.R. history as it will be 50 years on November 7 since Lord Strathcona drove the monument spike.

Value Of Grain Crop

Western Crop Estimated Value Placed At \$241,381,000

Western Canada's grain this year will be worth more than at any time since 1931, according to an estimate by the Winnipeg Free Press.

Based on present prices, the estimate, the total 1935 grain crop will bring \$241,381,000. The paper, using a 247,764,000-bushel estimate, says wheat will be worth \$156,615,000 at the Fort William figure of 71 cents a bushel (price for average minimum grade) less 17 cents average haul.

Thus, says the paper, the total 1935 crop is \$247,764,000 more valuable than the 1931 crop, \$159,195,000; \$82,857,000 more valuable than 1932; \$158,524,000; \$1,338,000 more valuable than 1933; \$7,009,000; \$18,326,000 more valuable than 1934; \$223,055,000.

Jasper-Edmonton Highway

Believe Arrangements Made To Ensure Construction

Climaxing a 15-year fight, construction of a fully-stated all-weather highway from Edmonton to Jasper appears assured at last, according to an announcement by acting premier Manning that arrangements for taking over the abandoned railway grade section of the highway had been completed and sufficient funds secured to guarantee the necessary construction, which will consist mainly of widening the grade.

Approximately 11,900,000 words are spoken annually by the average man.

In The Olden Days

Women Raced Their Own Yachts When Victoria Was Queen

Recent yachting activities remind a writer in Overseas that, before suffragette bloomers loomed on the horizon of emancipated womanhood, the fair sex was already challenging the supremacy of man in the sailing competitions in British waters.

Even as far back as the reign of Queen Victoria there were at least six women racing their own yachts in the Solent, and in 1889 the first of the "ladies' races," which are now so popular a feature of every yacht club regatta, was sailed.

In 1890, however, the activities of these "Solent actresses," as they were called, received something of a setback, for although races were especially provided in the program of a certain club, some owners objected to this form of sport and for several years the Solent yachtswomen were kept somewhere in the background.

Early in the present century this objection seems to have died down and women were once more owning and sailing their own motor boats not only in their own races, but in competition with what was then known as the "Solent actresses." They did not find it necessary to don shorts or trousers, these yachtswomen of the days when the King was Prince of Wales, but put on smartly to sea in long skirts and high hats, tied under the chin with motor-veils. These would be considered impracticable and even dangerous by the sailormen of 1935.

As a general rule, large birds live longer than small ones.

Fies With Clipped Wings

Homing Pigeon Proves They Always Return If Possible

One thing about a Homing pigeon is that it will come home to roost if that is at all possible. Witness the case of one just returned to its Montreal owner by Canadian National Express with the valued co-operation of Mrs. Elizabeth Bruce of Huntingdon, Que. A few days ago an obviously exhausted pigeon fluttered north at Huntingdon, Ontario, and Mrs. Bruce, knowing that the Express Company sometimes handled these flyers, notified C. E. Bellieres, General Manager of the Express Company, of the fact, giving the identification marks on the pigeon's leg band. By these numbers Mr. Bellieres located the owner, Mr. DeJorne, Jr., of 2318 Mason street, Montreal, to whom the bird was safely returned.

When captured the bird's wings were found to have been recently clipped. Mr. DeJorne recognized the pigeon as one released at Quebec, Ont., about 200 miles from Montreal. Not having reached home in reasonable time it had been given up as lost. Now the apparent explanation is that some person in Ontario captured the bird and clipped its wings. When the flight feathers grew out again sufficiently, however, the bird had taken wing and reached Huntingdon before it became exhausted in its attempt to reach home.

These Frogs Are Different

Species Shown In New York Skip Tadpole Stage

Three young frogs no larger than houseflies, hatched in the biology laboratories of the American Museum of Natural History, New York, were on exhibition along with several hundred other amphibians, reptiles and birds at the annual show of the Aquarium Society.

Visitors rubbed their eyes when the three frogs, known scientifically as *Rhinophrynus dorsalis*, were taken out one to one, leaving room for six or eight more.

Dr. G. Kingsley Noble, curator of the museum's department of experimental biology, explained that these were not their only unusual characteristics. They were one of the few species of frogs which skip the tadpole stage, the young being ready for business as soon as they popped out of the egg.

It developed some time back in their dim past, they had a tadpole stage but eventually found themselves in a pretty pickle with hardly enough water handy for a tadpole to swim in. Apparently resourceful amphibians, they just eliminated the tadpole stage and started laying their eggs on land. Dr. Noble said it probably took a good many thousand years but they did it.

Turn Tanks Into Arsenals

Japan Takes Extra Precautions To Cope With Bandits

To cope with bandits, who have been attacking trains on the Hsinking railway line, the Mukden Railway Administrative Bureau will protect passengers and crews. According to plans just formulated, the railway police will be stationed on the railway police on the line will immediately be equipped with machine guns, hand grenades and wireless apparatus. Also, a special repair engine will follow each train to guard it against attacks from the rear. Carrier pigeons and police dogs will also be used on the line to facilitate communication between stations.

New Place To Go

Stratmore May Be Popular Honeymoon Resort Some Day

"It is almost safe to prophesy that the children will spend their honeymoons in the stratosphere or their summer holidays in the ozoneosphere." This was declared by Colonel E. B. Mackintosh, director of the South Kensington (England) Science Museum while receiving the gondols of the balloon in which Professor Piccard made his sensational historic ascent into the stratosphere. The balloon, which has been presented to the museum, left Dübendorf Aerodrome, near Zurich, and after a flight of 12 hours landed on Lake Garda. The maximum height reached was about ten and a half miles.

Many Chinese in Shanghai carry great canaries with them and organize singing contests between the birds.

Older than Rome's famous road was a road built by Assyrian King Sargon the Second to link Nineveh with another town.

Enough heat, is lost by the human body in one hour to raise a half gallon of water to the boiling point.

Africa's Oldest Empire

History Of Abyssinia Ranges Over 3000 Years

Harold J. Shapiro, F.R.G.S., wrote the following article for the Edinburgh Scotsman:

Whatever may be the fate of Abyssinia as a result of the present dispute between this age-old African Empire and Italy, some reference to a remarkable land, her history, the strange mentality of her people, and their quaint customs and ways may prove of timely interest.

Her history is an ancient story of fact, legend, and tradition, ranging over thousands of years. On one occasion her present ruler, Emperor Haile Selassie, prepared for a friend of mine a list of her rulers. It contained the names of 312 sovereigns and extended back over 6,500 years, to 4,850 B.C., or the 97th year of the creation of the world, according to Abyssinian computation. Included in this list were Solomon and the Queen of Sheba, from whom King Menelik, the ruling house claim direct descent, which would give them a pedigree of the somewhat unusual length of 3,000 years.

Despite her long history Abyssinia, shut off from the rest of the world by towering mountains and bare deserts, has managed to escape the world's "forgetting," by her people have maintained an inviolability almost Biblical in its character. As a result the mentality of her people and the condition of most of the country have remained virtually unchanged since the days of the pharaohs. They live much as they did two thousand years ago.

True, Addis Ababa, the capital is now connected with the outside world by a railway—a single line which runs between it and Djibouti, the port of French Somaliland. This is but the first of a series of railways to a country about twice the size of Germany, or some 350,000 square miles in extent. The trains only run by day, out of Addis Ababa to the port of Djibouti, and the Danakil tribes, who commandeer the rails for shepherds and the copper telegraph wire for bandits, are not so well known. However, travellers often spend three or four days covering the 500 miles between Addis Ababa and Djibouti, and the permanent way being washed out by heavy rains.

The people still wear the old dress which seemed to have been used since time immemorial. This consists of a cotton shirt, trousers, and the chams, the latter being a kind of little skirt worn by the women during the day and used at night for a bed covering. The costume is the same for men and women and for all classes. The method of draping the chams is indicative of the attitude of the wearer towards the person in whose presence she wears it. To draw it about the waist would imply contempt, whilst to drop it off the shoulders and gather it round the body would be a sign of respect.

Impromptu courts of law, where any passer-by may be called upon to act as a judge, are still held at intervals in the market place. The method of settling disputes is settled with much immoderate oratory and an appalling waste of time. Though already long, the trial is not over until the judge, who holds the field for more serious crimes. Until recently it was quite a common sight to see half a dozen men swinging in the market place from improvised gallows or trees. Now murderers are executed in a little hut in the town, where they are tied to a post, rifles are trained on them through tubes in the wall, and the triggers are pulled by the relatives of the murdered man.

Very few Abyssinians outside the priesthood and the officials of Addis Ababa are able to read or write. The Emperor alone is able to write, and letters are not signed but sealed. The Emperor alone is entitled to wear the high topi of the monarch; everyone else is a peasant or a soldier; everyone else is a peasant or a soldier. The writing. It is a graceful script and a picturesque language; but, as the Emperor's signature is in the alphabet, besides about twenty compounds of these, Amharic is not exactly a subject that can be acquired in a week.

Monument To Horse

A horse's monument erected to the "Unknown War Horse" has been unveiled in the courtyard of the Francis Joseph Cavalry Barracks in Budapest, Hungary. The monument was erected at the initiative of General Stephen Horvath. After the unveiling ceremony the horses of the Regiment of Hussars quartered in the barracks were given the status of "war horses" by their riders.

A wreath of bananas was laid on the grave of Samuel Davenport, "bananas king" of Walworth, London, when he was buried at Nunhead, England.

Household Arts

These Cubic Cops are Quicker Made

PATTERN 5585

Soft, cuddly animal toys are the favorites of nursery-age youngsters and the wife is the mother who realizes how easily and cheaply such toys can be made. No need to buy new material for them; the left-over scraps of calico, chins or other novelty cottons are adequate and so colorful. With only one yard of material and a few minutes' time, the mother can make a delightful elephant's blanket which are separate, the stitching and stuffing are completed in no time at all. To obtain the pattern send 20 cents to the nearest mail-order store for a pattern for the animals shown, "directions for making them and transfer requirements." Write to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg.

There is an Alice Brooks pattern book published

SHOWER GIVEN BRIDE-ELECT

MRS. A. C. S. and a splendid shower was given at the home of Mrs. T. L. Montgomery on Friday evening in honor of Miss Eleanor Moffat, bride-elect of the month. Mesdames M. Hawshaw and P. R. Reeves and Miss Anna Hole were assisting hostesses. The earlier part of the evening was spent in doing fancy work and visiting. A very dainty lunch was served at 10 o'clock and then Miss Hole and Mrs. A. C. S. as an old-fashioned couple, marched down the stairs carrying a beautifully decorated basket filled with gifts for Miss Moffat. With many tears, these were presented. The gifts were beautiful and varied.

Gem Social Credit Group

Meet and Elect Officers

(Special to The Mail)

A successful meeting of the Gem Social Credit group was held at the school on Saturday evening for the election of officers. The chair is as follows: President, Mr. Jarvis; vice-president, W. C. England; secretary, treasurer, Ted Wade (acknowledged); elected in executive, Mrs. T. McGuire and Mr. H. Schreiner.

T. Wade and H. Schreiner were appointed as scrutineers for the election next Monday. Mrs. McGuire was selected as the group correspondent for The Bassano Mail.

The Gem Social Credit group paid a cordial invitation to attend their Hard Time dance in Gem this Friday, October 18.

Notice to Creditors and Claimants

IN THE ESTATE OF HARRY OSWOLD BERNIN, late of BASSANO the Province of ALBERTA, Gentleman, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims against the estate of the said HARRY OSWOLD BERNIN who died on 14th day of August 1935, are required to file with the undersigned by the 17th day of November A.D. 1935 a full statement duly verified of their claims and of any securities held by them, and that after that date the Executors will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or brought to their attention. JAMES R. DONALDSON, Bassano, Alberta.

One of the Executors of the Will of said Deceased.

Mr. and Mrs. J. H. Stiles paid a call in Brooks last week-end, returning on Sunday with Miss Catherine Scherer and Ted Stiles, who had driven down for the day.

Talk about big turkeys! Last month Harry Bacon of the Bassano Nursery gave us a turkey weighing fifteen and a half pounds, accompanied with the remark that it was a small one. Truly we were never spoken. Harry informs us that he dug one out this week that weighed 25 pounds.

The University of Alberta replied recently on the question of the species of spider found by Jack Fraser. As was believed locally, it was a Black Widow. The university in its reply states that this spider is found frequently between Passano and Empress, several specimens having been sent to them. The advocated treatment for a bite is much the same as for a snake bite, cutting the wound open and sucking. Potassium permanganate should also be applied to the wound as soon as possible.

WOMEN'S INSTITUTE

The Bassano W.I. will hold its regular meeting at the home of Mrs. Ingeberg on Saturday, October 12, at 8 p.m. At this meeting instructions will be given by one of its members on making artificial flowers. Visitors are welcome.
